I would like to thank my parents for supporting me through high school, driving me to places, and funding my co-curricular activities. I would also like to thank Mr. Lacy for being such an understanding teacher, director, and advisor for me. I also thank all of my classmates, teammates, coaches and friends for being superb people and creating great moments that might be forgotten with a case of amnesia. My high school experience has been great in so many ways and could not have been made that way without even minor influences by people whom I barely know, so thank you to all and to all a good night.

I respect both of them for all that they have done. My teachers were a big part of my graduating. I feel like I owe them for how much they have helped me. Lastly, I would like to thank my friends that stuck by me and were always there for me whenever I needed them. There is no need to mention names because they know who they are. We did it Class of 2007! Thank you, all of you in the class. I would like to thank God because without him or her, nothing can happen. I want to thank the administration and all of my teachers for all their individual influences on my education. I want to thank the class of '04, class of '05 and the class of '06, specially Brian Ware and Matt Greenberg. Brian was a great peer educator, Matt and I shared some great classes. I also want to thank the paintball team and the X country team for giving me co-curricular after school, I couldn't have had a better time, as better friends and coaches. I'm sure there are people to thank but I am running short of memory, so thank you to all of you I may not have remembered.

Thank you Ms. Vernacchio, Mr. Jacobs, Mr. Sullivan, and Mr. Nycz for not only making me a better student but a better person as well. Graduating high school is a huge step in our lives, the beginning of a new and bigger chapter. There are many people who have made reaching this milestone possible for me and to them I owe a huge thank you. First and foremost to my parents, you two have been there for me through thick and thin and I love both so much. To the teachers and faculty of NHS, you have made these past four years ones to remember! To my friends, the memories we have are incredible, hilarious, and most of all unforgettable, I love you all. To all my teachers, thank you. Your instruction has stretched my mind past the limits of what I knew to be possible. You have shown me that the difference between that which is and that which is not lies solely within ourselves.
